LIMIT-I
100% Silicone
Radiant Barrier Roof Coating
The only high reflectivity AND low emissivity roof coating available

- Dramatically decreases energy costs
- Increases occupant comfort
- Low cost, rapid payback
- Reduces roof skin temperatures 20-50°F
- Greatly extends roof life, reduces maintenance
- Strong UV resistance & weatherability
- Minimizes expansion/contraction stress
- Excellent adhesion, Apply to most roof surfaces
- Temperature tolerant to 1000°F+
- Class A Fire rated, electrically non-conductive
